

ACTA BOARD NOMINATION

Glenn Kable

Since 2023 I have been a Board Member of the ACTA, including as Chairman of the Sub-Committees for the Hall of Fame and the Disciplines & Championships.

Given my legal background I have been involved all matters affecting the ACTA from a legal standpoint, including Insurance matters and constitutional inquiries. As a AA grade Elite member I address those concerns affecting the grassroots members of the ACTA, and having an extensive working knowledge of the ISSF framework has allowed me to be more understanding of that discipline.

I have recently headed up the proposal to link with the Brisbane 2032 Organising Committee to establish an ISSF National Ground within the Belmont complex and sit as the ACTA representative on the International Clay Target Shooting Federation.

Below is my shooting CV
